THE PRES SAYS

G'day All,
I for one, am really happy with how the club is going at the moment. I feel we are in a really good place. We have an awesome team running the club, a big variety of trips going out and there seems to be a constant numbers of people looking to join our awesome club as well.
Well done and a big pat on the back to everybody for the great place we are in. Please let the committee know if you have any concerns with anything or even if you just want to give us some feedback on your thoughts.

Please keep in mind that our annual club event, Moonambel Muster, is coming up and will be on us before we know it. If you think you might like to help with either organising or setting up, please get in contact with a committee member and let us know. Remember, many hands make light work.

See you soon

CONVOY PROCEDURES

At the commencement of the trip, the Trip Leader shall arrange the convoy order and nominate a vehicle to be last in the convoy (Tail End Charlie). All vehicle shall stay in the convoy order unless directed otherwise by the Trip Leader.

COMMUNICATIONS

Convoy communication shall be by the designated CB Radio or UHF Radio channel selected. The nationally recognized 4WD convoy channel is Channel 10 on both AM and UHF frequencies.

Our club uses channel 12 UHF.

If you are unable to make radio contact, flash your headlights onto the vehicle ahead. This is a signal for the rest of the convoy to stop.

Keep unnecessary chatter on the radio to a minimum when navigating difficult areas.

If in doubt of the best / safest way to proceed through hazards / obstacles, ask the Trip Leader or more experienced driver for advice. Remember you probably won't be the only one experiencing difficulty.

Acknowledge all radio calls from the Trip Leader.

TRAVELLING

Keep the vehicle behind you in view at all times and at any decision point (corner, deviation, and obstacle):

- Wait for the following vehicle.
- Indicate where to go (use indicators if appropriate).
- When acknowledgment is received, then proceed

Drive at your COMFORTABLE and SAFE speed. Generally, keep 4-6 vehicle lengths distance between vehicles and keep the convoy moving.

On steep inclines / obstacles:

- Proceed one vehicle at a time.

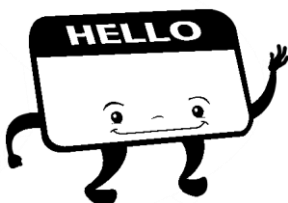

On very steep or difficult terrain:

- Call the next vehicle through when you are clear.

All gates are to be left as they were found. The Trip Leader is responsible to ensure that the last vehicle knows to leave the gate open or closed.

Vehicles should not leave the convoy other than in exceptional circumstances and before doing so must obtain approval from the Trip Leader.

REMEMBER YOU ARE RESPONSIBLE FOR THE VEHICLE BEHIND YOU

DON'T FORGET YOUR BADGE

Wearing your badge to all meetings, events and community activities makes it easier for everyone to become more personal and build friendships. It doesn't matter if you are a new or old member, please wear your badge

FUNNY CAPTION CONTEST

Come up with the funniest caption for the photo below and you could win a Club Voucher for use at the bar. Please send your funny caption entry to the Editor at editor@geelong4wdclub.org.au

HOWS THAT HUT

Riley Creek Hut

Riley Creek hut is on East Riley track down in the picturesque Wonnangatta Valley

The current Riley Creek Hut was built in 2002 replacing a hut that was accidentally burnt down by campers in 2001 .

The original hut was built c1950 when the valley saw mill had the Riley Creek timber licence.

Shez Tedford

Guest Speaker

At our last meeting we had Wayne Peteken and his wife Sue from the Victorian High country Huts association, come down and presented a power point display on the Association. Wayne chatted about the origins of the Association and gave valuable insight into the processes involved before any work can begin on a hut.

Wayne involved our members by asking them names of particular huts. Many of our members had good knowledge of the huts displayed.

We thank Wayne and Sue for making the long trip down here to be our guest speakers.

We met at Bannockburn Lions Park where the kids, big and little, had a play at the playground. Around 10.15am we headed for Enfield and once on East Dozed Track we aired down. East Dozed track gave us some fairly easy driving with a couple of nice little hills to keep it interesting. We then found West Dozed Track where we encountered a couple more hills that were a bit harder. Our car was not running too well so we stopped for lunch where the kids had a play, Matthew had the drone out and we had a look to see if we could fix the problem with our car but unfortunately we had to head home and let Cam take over as trip leader with Matthew Mountjoy as tail end. It wasn't long before Cam found a hill (aka Heart Attack Hill) for anyone wanting to have a try (there was another option around it). A few tried and had wheels in the air and then had to winch, but with no damage to cars, everyone was happy with their achievement. Well done to Cam for guiding those through who wanted to have a go. Winching and being stuck on hills is something these kids do on a regular basis (usually in extreme conditions) so its good that they can pass their knowledge on to newer members of our club and gain the respect they deserve. Thank you to Matthew and Juanita for stepping in a tail end we really appreciated it.

It was great to have 13 cars out for the day and it shows we need to have a few more day trips and explore our nearby areas and tracks.

22-24th March 2019

Cam Hamann - Rylan & Oakli Bird - Trip Leader
Tim Neville - Jai Sebastiani
Ryan Rhodes - Rhiannon & Mia (PM)
Nick Townsen (PM)
Harrison Parke (PM)
Dave & Allie Hamann - Tail End

Friday night 3 cars set out to camp in the bush near Toolangi. Saturday morning Dave, Allie & Oakli headed up to meet them with a slight change of plans once we got to the roundabout in Bannockburn where we had to turn around and swap cars, as STEFI wasn't running well again. We arrived to a couple of wet boys and waited for Ryan, Rhiannon and Mia to join us. With the group together we headed for our first track with a nice little climb to warm us up.

Not far along we hear on the radio that there is a little bog hole if anyone wants to give it a go....well needless to say Ryan, Cam and Nick had to test it out. No one got stuck thankfully because I don't know who was getting in the mud to save them.

After a few more nice climbs and a river crossing, we stopped to have lunch in a great clearing/camp spot.

It was time to set off again and we soon came across "Walking Track" This track was beautiful to start with and it wasn't long after I said to Dave 'this is a nice little track' that we hear on the radio that the winches were coming out.

I decided to bail and do as the track suggests and walk, along with Rhiannon and Mia. We found ourselves a nice spot we could sit and watch as Ryan was winched onto the correct track where he then continued to drive the rest of the way, then Dave decided he would head up taking an initially different line and making it safely to the top (although we now need new tyres). Tim drove up with a little help from his winch then made it the rest of the way under his own steam. Cam, having winched to a tree to access where he was going, lowered himself back down the track to take the same line as his dad, but of course had to make it look a bit more spectacular and scare me while I was trying to video him.

Once everyone was up safely we moved on to Aeroplane Track and came across a deep cutout which had it been wet would have held a lot of water. After Cam, Ryan, Tim and Nick had a play we turned around and headed for our camp spot.

It was a lovely night around the fire, with Harry turning up to entertain us and Dave cooking a BBQ for everyone to enjoy. The next morning was a slow start as we only had a couple of tracks to do then it was time for home. After a nice breakfast, cooked by Dave once again, we headed off at about 10am. We found a few more good tracks with deep ruts and climbs and the boys were wishing there had been a bit more rain so they could play in some mud. Oh well we will just have to go back!!!!

Last track of the day was Rocky Track where only Cam, Ryan and Tim went up with the rest of us heading back to the motorbike staging area to air up and have some lunch with the others when they returned.

We then headed back to Geelong after a great weekend.

Thank you to Cam for running the trip and being a great trip leader once again. It was great to have a few prospective members on the trip and hopefully they enjoyed themselves and join us again.

Cheers Allie

This trip was supposed to head into Butcher country, however, because of the current fires and track closures we had to change our trip location.

After 2 unsuccessful plans to head to the high country we did a complete change and decided to go up to the desert.

Most of the group headed up Friday morning lead by Geoff. Warren and I arrived later that night.

Our first night camp was at the Casurina camp ground near Patchewollock. This is a great camp ground, clean, with plenty of space, and facilities. By the time Warren and I arrived, the camp fire was blazing, and the group were in great spirits. Plenty of socialising and great camp fire ambience.

On Saturday morning we packed up and headed south west through the National park. We drove the sand tracks on the west side of lake Albacutcha. After a shaded stop for lunch we continued along the sandy fence line track and turned onto Chinamans track. This is a reasonably easy sand track although there were a few deeper sandy sections and a couple of small dune hills. The track is 32 ks long. This track although easy in the dry would be a challenge in the wet.

We rejoined Murrayville Track and then headed into the Big Billy Bore camp ground where we would be based for the next two nights.

This another great camp ground with big clean camping areas and almost new facilities.

Young Tyler got the fire started and we settled in for another great night of chatter and the mandatory camp fire ambience.

Tim and Johnny arrived later that evening and it was good to have them safely into camp.

On Sunday we had a leisurely start to our day and left camp around 9.30. We headed south out of camp onto Murrayville track and then turned onto Brushcutters track. We were heading for Big Dune.

Rory had to turn around half way along this track as he lost some of his gear out of the back of his ute and had to retrace his tracks. He rejoined us at big dune.

Big Dune is a massive, steep sand dune with deep soft sand, which provides some fun and entertainment to drive it. Most of our group drove the Dune under their own steam, just a couple of us needed the help of a winch. Doesn't matter how you get up the Dune as long as you do. !!!!With all of us up the first section we continued up to the very top of the dune. This section isn't as steep, but still fun, and we all managed to drive up without winching. The view from the top is breath taking, with 360degree views of the Wyperfeld National park.

We followed the dune ridge down the southern side. There were a couple of steep sections and the track was narrow in places as well. It was a good, fun track. We stopped at the bottom for some lunch and stretch of the legs.

We followed Delisio track back out to the Murrayville track. Directly opposite this intersection we found another dune that we couldn't pass up the opportunity to have a crack at.

We spent the next couple of hours having some fun driving both the tracks on this dune. It was good fun.

We headed back to camp and again settled in for another relaxing evening.
On Monday morning we packed up and began our journey home.
We stopped in Horsham for lunch at the Victoria hotel, before continuing our trip back to Geelong.
It was another successful weekend with some great people. Thankyou to everyone who came on our trip and made it so much fun.
