## THE PRES SAYS

G'day All,

Well Moonambel is right around the corner now and with the turn in our weather this week, there is every possibility that it could be a cold and wet weekend, but let's hope not. I'm looking forward to seeing as many members there as possible to make it another amazing event for our great club. Please get your payments in to the bank account with your name and Moonambel as the reference which will help streamline the check in times. Of course if you haven't yet booked, it's not too late so get in touch with Allie Hamann and let her know your coming. Don't forgot your hoodies and shirts from Hip Pocket, just give them a call. We also have our AGM and presentation night at next months meeting. So come along and have your say on who and how our club will be run for the next year.

See you all there,  
Byron

President Geelong Four Wheel Drive Club

# CONVOY PROCEDURES

At the commencement of the trip, the Trip Leader shall arrange the convoy order and nominate a vehicle to be last in the convoy (Tail End Charlie). All vehicle shall stay in the convoy order unless directed otherwise by the Trip Leader.

## COMMUNICATIONS

Convoy communication shall be by the designated CB Radio or UHF Radio channel selected. The nationally recognized 4WD convoy channel is Channel 10 on both AM and UHF frequencies.

Our club uses channel 12 UHF.

If you are unable to make radio contact, flash your headlights onto the vehicle ahead. This is a signal for the rest of the convoy to stop.

Keep unnecessary chatter on the radio to a minimum when navigating difficult areas.

If in doubt of the best / safest way to proceed through hazards / obstacles, ask the Trip Leader or more experienced driver for advice. Remember you probably won't be the only one experiencing difficulty.

Acknowledge all radio calls from the Trip Leader.

## TRAVELLING

Keep the vehicle behind you in view at all times and at any decision point (corner, deviation, and obstacle):

- Wait for the following vehicle.

- Indicate where to go (use indicators if appropriate).

- When acknowledgment is received, then proceed

Drive at your COMFORTABLE and SAFE speed. Generally, keep 4-6 vehicle lengths distance between vehicles and keep the convoy moving.

On steep inclines / obstacles:

- Proceed one vehicle at a time. on very steep or difficult terrain:

- Call the next vehicle through when you are clear.

All gates are to be left as they were found. The Trip Leader is responsible to ensure that the last vehicle knows to leave the gate open or closed.

Vehicles should not leave the convoy other than in exceptional circumstances and before doing so must obtain approval from the Trip Leader.

**REMEMBER YOU ARE RESPONSIBLE FOR THE VEHICLE BEHIND YOU**

## MVO Track Access

We remind you all that affiliated Clubs and Trip Leaders can access MVO tracks and plan trips that include them. There is a process to be followed to obtain access approval and details are obtainable from Four Wheel Drive

Victoria. Once access has been granted from Parks Victoria and FWDV, you are entitled to enjoy a unique 4WD trip in the bush, as only FWDV affiliated club members are allowed access to MVO tracks. Trip Leaders and clubs are encouraged to research which tracks are available and plan club trips accessing these MVO tracks as historically not many clubs have taken up the opportunity. The expectation from Parks Victoria is that clubs create a report on the condition of the tracks and terrain. More information can be found if you log into

# HOWS THAT HUT

## Mount No3 Refuge Hut

Mount No3 Refuge Hut is located near the summit of Mount Number three Road.

The Original Hut

Travel through Mansfield and take the Mount Stirling Turn off. At Telephone Box Junction take the left road onto the circuit Road and shortly after turn onto Mount No3 Road.

The hut is at an elevation of approximately 14450 Metres above sea level.

Like most of the huts in this region seasonal road closures apply. The hut is only accessible from November through to Queens Birthday weekend each year.

### History

The Mansfield Nordic Ski Club first requested a hut be built on Mount Number 3 road in 1981. Permission was finally granted the hut was built in 1985, with strict instructions that the hut be made available to the general public. This hut was built further down the mountain than where the current hut stands today.

Unfortunately, the hut the hut was destroyed by the devastating bush fires that ravaged this region in 2006/07. The new hut was built nearby, closer to the summit of the road. It has a welcoming pot belly stove and is fully lined.

Because of the altitude this hut, like many others in this region is subject to large amounts of snow during winter.

# TRIP REPORTS

## Ellis Track

**MAY 17th-19th**

### **Participants;**

Cam, Oakli, Rylan GQ Patrol, Lachie, Donna, Jake GQ Patrol, Tim, Jimmy, Ebony GU Patrol

Mitch GU Patrol, Levi & Justin GQ Patrol, Ryan GQ Patrol, Corie & Cass GQ Patrol.

We met at the north bound BP at Lovely Banks on Friday at 6pm ,where 5 of the 7 cars met and we were on the road by 6:20pm heading about 2 hours towards Wesburn. We arrived at our camp at around 8:30 just out of Yarra Junction and set up camp .We got a fire going and all sat around and had a few drinks and kept warm. At about 10pm Ryan and Corie arrived at camp.

We woke up and headed 2 minutes down the road from camp to Ellis track. We were faced with a variety of different obstacles, from big rock steps to slippery clay hills. Everyone got up the track with a few big wheel lifts and minimal damage. We got to the top and had some lunch while a few cars cooled down and changed some damaged wheels. After lunch we headed towards our next track where we took a wrong turn, so did a U-turn and went straight into a police licence and vehicle check. After that we continued on and did a few more tracks and got back to camp at around 8:30pm.3 cars headed home and the others stayed for another night. All up it was an awesome trip thanks to everyone that came along.

## The King Billy Tree

The King Billy Tree is located just off the Bluff Link Track approximately 3 kilometres from Lovick's Hut at an altitude of 1600 metres above sea level.

This ancient and beautiful Snow gum is believed to be in excess of 200 years old and is the largest specimen known in the Mansfield Alpine region.

The tree is heritage listed

The trunk of the tree is 9.45 metres in diameter, has a 20 metre wide canopy and boasts 9 magnificent branches.

The name, King Billy Tree apparently comes from the fact that the tree is located just north of King Billy Mountain, which has twin peaks, 1 & 2.
